The purpose of UCSF Neurological Surgery Grand Rounds is to update and educate attending faculty, residents, staff and health-care professionals on topics in basic and clinical neuroscience.

Attendees will be exposed to the latest research and scientific progress in the field of Neurological Surgery, and will heighten their awareness of how this work impacts clinical practice.

7:00 - 8:00am
Instructional Case Conference

8:00 - 9:00am
Genetic Studies of Oligodendrogliomas

Lecture Objective
"At the end of the presentation, attendees will be able to discuss the clinical and biologic relevance of the genetic alterations associated with oligodendrogliomas"

Robert Brian Jenkins, M.D., Ph.D.
Consultant of Laboratory Medicine
Mayo Clinic

THURSDAY, October 27, 2005
N-225

The University of California San Francisco, School of Medicine (UCSF) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

UCSF designates this educational activity for a maximum of two category 1 credits toward the American Medical Association (AMA) Physician's Recognition Award. Each physician should claim only those credits that he/she actually spent in this activity.

Dr. Jenkins has indicated that he (or any existing family member) does not have any financial arrangement or other relationship with the manufacturer of any commercial product(s) discussed in this continuing medical education activity. In addition, he does not intend to include information or discuss investigational or off-label use of pharmaceutical products or medical devices.

No Commercial support has been received for this continuing medical education activity.
